Position: Automation Engineer

Location: Coatesville, PA

Job Description and Primary Requirements:

Immediate opening available for an Automation Engineer. Successful candidate will be an individual who is self motivated and requires minimal direction and supervision. This Engineer must have the desire to learn new skills, have good troubleshooting skills, and must be able to communicate well both verbally and in writing to clients and co-workers.

Experience and Minimum Qualifications:

- 5+ years or more experience in Automation system design and start-ups
- Experienced with PLC (Rockwell, Modicon, etc...), SCADA (Wonderware, Rockwell, Citect, etc..) programming and configuration
- Wonderware experience and certified developer would be nice but not a must
- Experience in Life Sciences (GMP) is a plus
- Control Panel troubleshooting knowledge
- PC and Server setup and configurations knowledge needed
- Must be able to read wiring and P&I Drawings
- Must be willing to travel with overnight stays (~20%)
- Knowledge of information systems (MES/IT) is a plus
- High level language knowledge (C++, C#, .net) is a plus
